Remember to ask about our **deliver and collect service**, and our operated service with skilled sound and lighting engineers

## Operated PA Packages:

If you are looking for something bigger and require professional operators to provide a complete service, then we have a wide range of offerings from small pub gigs to festival stages. Our own stocked PA systems can provide for crowds up to 1,000 people, but we can also provide larger systems in conjunction with our trade partners. We have a wide range of quality active PA Systems:
